CERTIFICATIONS & PUBLICATIONS

- **Bloomberg Market Concepts** – Bloomberg
- **Bloomberg Finance Fundamentals** – Bloomberg
- **Bloomberg Spreadsheet Analysis** – Bloomberg
- **Environmental Social Governance** – Bloomberg
- **Deep Learning with Power BI and NN** – DeepLearning.io
- **Summer Analytics 2024** - IIT Guwahati

CORE SKILLS

- Python, R
- SQL, DBMS
- Power BI, Tableau
- Process Optimization
- NLP
- MLOps
- MS Excel
- Risk Analysis
- Ratio Analysis
- Financial Modelling
- Business Communication
- PnL Analysis
- Adaptability
- Flexibility
- Leadership
- Stakeholder Management

PROJECTS

Financial Lead | Project Prarambh

- **Co-founded** a sustainable recycled 3D-printing filament startup, leading financial strategy by building 5-year financial projections, **estimating ₹25L+ capital requirements**, and analyzing cost structures to assess scalability.
- Evaluated investment feasibility using **WACC, NPV, IRR (18%+), and payback period analysis**, supporting data-driven decisions on funding strategy and long-term business viability.

Business Analyst | Nobelza – Market Entry Strategy

- **Led** market entry and commercialization analysis for a portable TB-testing kit through market sizing, competitive benchmarking, and demand forecasting across multiple healthcare segments.
- **Developed** Excel-based financial and risk models **evaluating ₹5–10 Cr market opportunities**, optimizing pricing and distribution strategy to **improve deployment efficiency by ~20%**.

Budgets and Macroeconomic Outcomes in India – Comparative Case Study

- **Analyzed 20+ years of macroeconomic data** (GDP, inflation, fiscal deficit, capital expenditure, FDI) to evaluate the economic impact of UPA vs NDA fiscal strategies.
- Built trend-based Excel **dashboards and policy comparisons using 150+ economic indicators**, identifying relationships between fiscal policy, growth patterns, and investment flows.

EPICS Envaplix Research Project – ESG & BRSR Analysis

- **Analyzed 50+ corporate BRSR disclosures** using ESG benchmarking frameworks to evaluate sustainability performance across **10+ environmental, social, and governance metrics**.
- Identified key reporting gaps and developed comparative Excel dashboards, improving clarity and consistency in corporate sustainability performance assessment.

SUMMER INTERNSHIPS

Technical Internship – **IIRS, ISRO** – Data Science Intern

[May 2025-July 2025]

- Conducted hyperspectral analysis on **1,000+ spectral samples across 50+ bands using advanced remote sensing techniques**, collaborating with a **4–5 member research team** to extract spectral signatures, classify 10+ material types, and generate geospatial insights for environmental and scientific applications.

OTHER INTERNSHIPS

Soul AI- Data Annotator

[May 2024-July 2024]

- **Led training and validation** of an LLM using **10k+ market research data points**, implementing structured quality assurance and evaluation pipelines to enhance model accuracy and ensure alignment with real-world market insights.

ACHIEVEMENTS AND POSITIONS OF RESPONSIBILITY

- **Finalist at Action Plan 2023, IIT Bombay**: developing and presenting innovative, actionable solutions through strategic planning, market analysis, and collaborative execution.
- **Senior Diploma in Kathak**: demonstrating advanced classical dance proficiency, expressive storytelling, and strong stage presence.
